Optional features and modifications

Seance Care

Armrests

BR-N2

- grey nylon armrests and grey seat cover for 4-leg models (surcharge for models with black nylon armrests)

87 SEK

Others

BR-P

- leather armrest cover
 - for cantilever models
 - leather colour according to the sampler Panama Leather
-

174 SEK

Armrests

**BR-785-N6**

- polished aluminium armrests

1 337 SEK

Gliders

**GM**

- felt anti-scratch glider pads for hard floors

87 SEK

Castors

**RM60**

- black rubber castors for hard floors, Ø 60 mm

0 SEK

**RM60-N4**

- universal castors, Ø 60 mm
- chrome twin-wheel castor

640 SEK

Castors and gliders

RM50-BRK

- black rubber castors for hard floors with brake, Ø 50 mm
- blocking of movement after loading the chair
- replacement for gliders for high piston models

0 SEK

Others

**TP**

- black right hand folding table
- for conference models with nylon armrests

1 017 SEK

**SR**

- linking devices with a safety lock
- for 4 leg base models

378 SEK

Recyclable fabric / Recyklovatelná látka / Wiederverwertbarer Stoff

- The specially developed Sari microfiber fabric combines properties that are gentle on maintenance and friendly to pets. It is soft and pleasant to the touch, with a fine surface texture that prevents unpleasant fiber tearing.
- The fabric is not only highly durable and long-lasting, but also easy to clean and wash. For standard care, use a vacuum cleaner regularly. In case of heavy soiling, the fabric can be gently dry-cleaned with perchloroethylene.
- Sari fabric has passed the scratch resistance test according to BS 8479:2008, achieving the highest possible rating.
- Shades of the fabric may vary slightly between different delivery batches.
- Speciálně vyvinutá mikrovláknová látka Sari spojuje vlastnosti šetrné k údržbě i domácím mazlíčkům. Je měkká a příjemná na dotek, přičemž její jemná povrchová struktura zabraňuje nepříjemnému trhání vláken.
- Látka je nejen velmi odolná a trvanlivá, ale také se snadno čistí a pere. Pro běžné čištění a údržbu pravidelně vysávejte vysavačem. V případě silného znečištění lze látku šetrně chemicky čistit perchlorethylenem.
- Látka Sari prošla testem odolnosti proti poškrábání podle normy BS 8479:2008 a získala nejlepší možné hodnocení.
- Odstíny látky se mohou mírně lišit mezi jednotlivými dodávkami.
- Der speziell entwickelte Mikrofaserstoff Sari vereint Eigenschaften, die pflegeleicht und haustierfreundlich sind. Er ist weich und angenehm im Griff, und seine feine Oberflächenstruktur verhindert unangenehmes Ausreißen der Fasern.
- Der Stoff ist nicht nur sehr widerstandsfähig und langlebig, sondern lässt sich auch leicht reinigen und waschen. Zur standardmäßigen Pflege bitte regelmäßig absaugen. Bei starker Verschmutzung kann der Stoff schonend mit Perchlorethylen chemisch gereinigt werden.
- Der Stoff Sari hat den Kratzbeständigkeitstest nach BS 8479:2008 bestanden und die höchstmögliche Bewertung erhalten.
- Die Farbtöne des Stoffes können zwischen verschiedenen Lieferchargen leicht variieren.

Features / Vlastnosti / Eigenschaften	PERMABLOK ^{3®} — advanced vinyl protection Antifungal, antibacterial and antimycotic protection Mildew resistant Sulfide stain resistant Anti-static finish	

✦ Hygienic fabric / Hygienická látka / Hygienischer Stoff

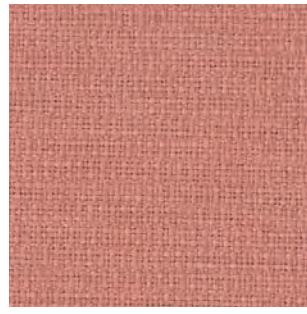

- **PERMABLOK^{3®}** is a proven vinyl protective coating that's engineered to create a tough, effective barrier against the three biggest problems encountered in healthcare and hospitality environments — germs, abrasion and stains.
- The vinyl should be cleaned periodically in order to maintain its appearance and prevent build-up of dirt and contaminants. Any stain, spills or soiling should be cleaned up promptly to prevent the possibility of permanent staining. Use soft soapy solutions or special cleaning products for vinyl fabrics to remove stains on the surface of the material. Remove only with a damp white cloth. Lacquers, strong cleaners, detergents, xylene-based solutions, acetone or MEK cause immediate damage and contribute to the deterioration of the material. The use of such cleaners is at owner's risk.
- Certain clothing and accessory dyes (such as those used on denim jeans) may migrate to lighter colors. This phenomenon increased by humidity and temperature and is irreversible. LD Seating will not assume responsibility for dye transfer caused by external contaminants and possible permanent staining caused by this phenomenon.
- Látka má protiplísňovou, antibakteriální a antimykotickou ochranu, a také je odolná vůči krvi, moči a sulfidovým skvrnám. Povrch látky je opatřen antistatickou úpravou.
- **PERMABLOK^{3®}** je osvědčená ochranná vrstva pro vinyl, která je navržena tak, aby vytvořila tvrdou, účinnou bariéru proti třem největším problémům, které se vyskytují v zdravotnickém a hotelovém prostředí — bakteriím, oděru a skvrnám.
- Vinyl by měl být pravidelně čištěn, aby si udržel svůj vzhled a zabránilo se hromadění nečistot a kontaminujících látek. Jakékoliv skvrny, rozlité tekutiny nebo jiné znečištění, by měly být rychle odstraněny, aby se předešlo možnosti trvalého zbarvení. Použijte jemné mýdlové roztoky nebo speciální čisticí prostředky pro vinylové tkaniny. Odstraňujte pouze vlhkým bílým hadříkem. Laky, silné čisticí prostředky, detergenty, prostředky na bázi xylenu, acetonu nebo butatonu způsobují okamžitě poškození a přispívají ke znehodnocení materiálu. Použití takových čisticích prostředků je na riziko majitele.
- U některých látek a přídavných barev (např. ty používané v džínovině) může dojít k zbarvení světlejších odstínů. Tento jev je nevratný a zesiluje ho vlhkost a teplota. LD Seating nepřebírá jakoukoli odpovědnost za změnu zbarvení zapříčiněnou vnějšími znečišťujícími látkami a možným trvalým znečištěním zapříčiněným tímto jevem.
- Der Stoff hat einen antimykotischen, antibakteriellen und antifungalen Schutz und ist außerdem resistent gegen Blut-, Urin- und Sulfidflecken. Die Oberfläche des Stoffes ist antistatisch behandelt.
- **PERMABLOK^{3®}** ist eine bewährte Vinyl-Schutzbeschichtung, die so konzipiert ist, dass sie eine robuste, effektive Barriere gegen die drei größten Probleme in Gesundheits- und Hotellerie bildet — Keime, Abrieb und Flecken.
- Das Vinyl sollte regelmäßig gereinigt werden, um sein Aussehen zu erhalten und die Ansammlung von Schmutz und Verunreinigungen zu verhindern. Jeder Fleck, Verschüttungen oder Verschmutzungen sollten umgehend gereinigt werden, um die Möglichkeit von dauerhaften Verfärbungen zu verhindern. Verwenden Sie sanfte Seifenlösungen oder spezielle Reinigungsprodukte für Vinylstoffe, um Flecken auf der Oberfläche des Materials zu entfernen. Entfernen Sie nur mit einem feuchten weißen Tuch. Lacke, starke Reinigungsmittel, Waschmittel, Xylol-basierte Lösungen, Aceton oder MEK verursachen sofortige Schäden und tragen zur Verschlechterung des Materials bei. Die Verwendung solcher Reinigungsmittel erfolgt auf eigenes Risiko des Besitzers.
- Die Farbstoffe bestimmter Textilien und Accessoires (z.B. Jeans) können auf hellere Oberflächen abfärben. Dieser Effekt nimmt mit steigender Feuchtigkeit und Temperatur zu und ist irreversibel. LD Seating haften weder für das Abfärben durch externe Stoffe oder verunreinigende Substanzen, noch für eine eventuell dadurch entstehende permanente Verschmutzung / Verfärbung.

Features / Vlastnosti / Eigenschaften	Waterproof Stain resistant ShieldPlus™ Antimicrobial Halogen and PFAS Free REACH Compliant	

✦ Hygienic fabric / Hygienická látka / Hygienischer Stoff

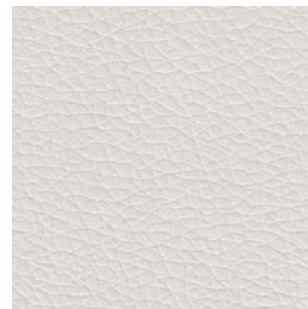

- The Riva fabric is comfortable yet durable, designed to perform even in the most demanding environments. The fabric is treated with a PFAS-free fluorocarbon technology that combines effectiveness with environmental responsibility.
- Thanks to its waterproof film, the fabric passed the hydrostatic head test, exceeding the British Standard requirement of 1 m.
- Antimicrobial ShieldPlus™ protection permanently inhibits a broad spectrum of microbes (including C. diff spores) and prevents unpleasant odours.
- Vacuum or wipe clean regularly with a microfibre cloth lightly dampened with cold water only. Blot spillages immediately with an absorbent dry cloth to prevent staining. Remove body fluids and heavy soiling promptly (within 15 minutes) using cold water, then apply an approved infection control protocol such as Haz Tabs, Chlor Clean, or ShieldPlus™. As the concentration of bleach can vary greatly between proprietary brands, we recommend avoiding its use. Remove any product residues and dry with a clean, absorbent cloth.
- Do not steam clean – heat seals in stains. Do not tumble dry. Do not dry clean. Do not fully immerse in water. Do not use solvents, alcohol, or any other chemical cleaners.
- Shades of the fabric may vary slightly between different delivery batches.
- Látka Riva je pohodlná, a přitom odolná – je navržena tak, aby obstála i v nejnáročnějších podmínkách. Je ošetřena technologií bez PFAS na bázi fluorokarbonu, která spojuje účinnost s ohledem na životní prostředí.
- Díky voděodolné vrstvě látka úspěšně prošla testem vodního sloupce a překročila požadavek britské normy 1 m.
- Antimikrobiální ochrana ShieldPlus™ trvale brání množení širokého spektra mikrobuů (včetně spor C. diff) a zabraňuje vzniku nepříjemných pachů.
- Pravidelně vysávejte nebo otírejte mikrovláknovou utěrkou navlhčenou studenou vodou. Rozlité tekutiny ihned vsajte do suché savé utěrky, aby se zabránilo vzniku skvrn. Tělesné tekutiny a silné znečištění odstraňte okamžitě (do 15 minut) studenou vodou a poté použijte schválený dezinfekční prostředek, jako je Haz Tabs, Chlor Clean nebo ShieldPlus™. Protože se koncentrace bělidel může mezi různými značkami výrazně lišit, doporučujeme se jejich používání vyhnout. Odstraňte zbytky přípravků a povrch osušte čistou savou utěrkou.
- Nečistěte párou – teplo může způsobit zafixování skvrn. Nesušte v sušičce. Nečistěte chemicky. Nemáchejte ve vodě. Nepoužívejte rozpouštědla, alkohol ani jiné chemické čisticí prostředky.
- Odstíny látky se mohou mírně lišit mezi jednotlivými dodávkami.
- Der Riva-Stoff ist komfortabel und zugleich strapazierfähig, entwickelt, um selbst unter anspruchsvollsten Bedingungen zuverlässig zu bestehen. Er ist mit einer PFAS-freien Fluorkohlenstofftechnologie behandelt, die Wirksamkeit mit Umweltverantwortung vereint.
- Dank seiner wasserdichten Beschichtung hat der Stoff den Wassersäulentest bestanden und die britische Normanforderung von 1 m übertroffen.
- Die antimikrobielle ShieldPlus™-Ausrüstung hemmt dauerhaft ein breites Spektrum an Mikroben (einschließlich C. diff-Sporen) und verhindert unangenehme Gerüche.
- Regelmäßig absaugen oder mit einem Mikrofasertuch abwischen, das nur leicht mit kaltem Wasser angefeuchtet ist. Verschüttete Flüssigkeiten sofort mit einem saugfähigen Tuch aufnehmen, um Fleckenbildung zu vermeiden. Körperflüssigkeiten und starke Verschmutzungen umgehend (innerhalb von 15 Minuten) mit kaltem Wasser entfernen und anschließend ein zugelassenes Desinfektionsmittel wie Haz Tabs, Chlor Clean oder ShieldPlus™ anwenden. Da die Bleichmittelkonzentration je nach Hersteller stark variieren kann, empfehlen wir, deren Verwendung zu vermeiden. Rückstände gründlich entfernen und mit einem sauberen, saugfähigen Tuch trocknen.
- Nicht dampfreinigen – Hitze versiegelt Flecken. Nicht im Wäschetrockner trocknen. Nicht chemisch reinigen. Nicht vollständig in Wasser tauchen. Keine Lösungsmittel, Alkohol oder andere chemische Reinigungsmittel verwenden.
- Die Farbtöne des Stoffes können zwischen verschiedenen Lieferchargen leicht variieren.

Features / Vlastnosti / Eigenschaften	Resistant to disinfectants, urine, and swimming pool water Liquid-impermeable	EN 20811

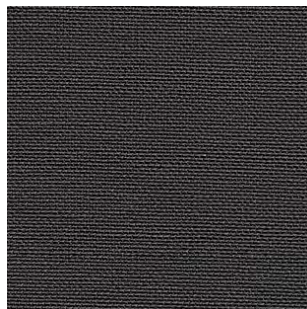

✚ **Fabric suitable for healthcare / Látka vhodná do zdravotnictví / Stoffe geeignet für Krankenhaus & Pflege**

✦ **Hygienic fabric / Hygienická látka / Hygienischer Stoff**

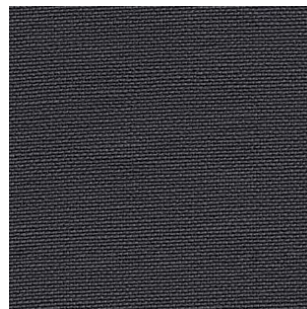

- Touch is the new leatherette generation: It is high-quality, durable, soft, supple, breathable and comes with an excellent stain resistance. This high solid polyurethane leatherette is free of phthalates, PVC, lead and heavy metals. It can even be disposed of eco-friendly.
 - To keep the good appearance of the Touch leatherette, it should be cleaned regularly with mild soap and water.
 - For all types of stains, the sooner you clean them, the better. Various food and oil spills can be removed using a soft cloth and mild detergent without abrasive additives. Other difficult stains can be treated with water-diluted isopropyl alcohol (rubbing alcohol), ratio 1:1, or with a water-diluted household bleach, ratio 1:4. It is necessary to rinse the leatherette with clean water after each cleaning and to wipe it dry.
 - Certain clothing and accessory dyes (such as those used on denim jeans) may migrate to lighter colors. This phenomenon is increased by humidity and temperature and is irreversible. LD Seating will not assume responsibility for dye transfer caused by external contaminants and possible permanent staining caused by this phenomenon.
- Látka je odolná vůči desinfekčním prostředkům, moči a vodě z bazénů. Nepropouští kapaliny.
 - Touch je nová generace koženky: Je vysoce kvalitní, odolná, měkká, poddajná, prodyšná a má vynikající odolnost vůči skvrnám. Tato vysoce pevná polyuretanová koženka neobsahuje ftaláty, PVC, olovo ani těžké kovy. Lze ji dokonce ekologicky zlikvidovat.
 - Aby si koženka Touch zachovala dobrý vzhled, měla by být pravidelně čištěna jemným mýdlem a vodou.
 - U všech typů skvrn platí, že čím dříve je vyčistíte, tím lépe. Různé potravinové a olejové skvrny lze odstranit pomocí měkkého hadříku a jemného detergentu bez abrazivních přísad. Jiné obtížné skvrny lze ošetřit isopropylalkoholem (lihem) zředěným vodou v poměru 1:1 nebo bělidlem určeným pro domácnosti zředěným vodou v poměru 1:4. Po každém čištění je nutné koženku opláchnout čistou vodou a osušit.
 - U některých látek a přídavných barev (např. ty používané v džínovině) může dojít k zbarvení světlejších odstínů. Tento jev je nevratný a zesiluje ho vlhkost a teplota. LD Seating nepřebírá jakoukoli odpovědnost za změnu zbarvení zapříčiněnou vnějšími znečišťujícími látkami a možným trvalým znečištěním zapříčiněným tímto jevem.
- Das Material ist beständig gegen Desinfektionsmittel, Urin und Schwimmbadwasser. Es ist flüssigkeitsundurchlässig.
 - Touch ist die neue Generation von Kunstleder: Es ist hochwertig, langlebig, weich, geschmeidig, atmungsaktiv und hat eine hervorragende Fleckenbeständigkeit. Dieses Kunstleder aus hochfestem Polyurethan ist frei von Phthalaten, PVC, Blei und Schwermetallen. Es kann sogar umweltfreundlich entsorgt werden.
 - Um das gute Aussehen des Touch-Kunstleders zu erhalten, sollte es regelmäßig mit mildem Seifenwasser gereinigt werden.
 - Bei allen Arten von Flecken gilt: Je früher Sie sie reinigen, desto besser. Verschiedene Lebensmittel- und Ölverschmutzungen können mit einem weichen Tuch und einem milden Reinigungsmittel ohne abrasive Zusätze entfernt werden. Andere schwierige Flecken können mit wasserverdünntem Isopropylalkohol (Reinigungsalkohol) im Verhältnis 1:1 oder mit wasserverdünntem Haushaltsbleichmittel im Verhältnis 1:4 behandelt werden. Es ist notwendig, das Kunstleder nach jeder Reinigung mit sauberem Wasser abzuspülen und trocken zu wischen.
 - Die Farbstoffe bestimmter Textilien und Accessoires (z.B. Jeans) können auf hellere Oberflächen abfärben. Dieser Effekt nimmt mit steigender Feuchtigkeit und Temperatur zu und ist irreversibel. LD Seating haften weder für das Abfärben durch externe Stoffe oder verunreinigende Substanzen, noch für eine eventuell dadurch entstehende permanente Verschmutzung / Verfärbung.

Weight / Váha / Gewicht	685 g/m ²	
Width / Šířka / Breite	137 cm	
Abrasion resistance / Oděruvzdornost / Scheuerfestigkeit	Martindale 300 000 cycles	EN ISO 12947-2
Flammability / Ohnivzdornost / Feuersicherung	EN 1021-1&2, DIN 4102 B2	
Features / Vlastnosti / Eigenschaften	PERMABLOK ^{3®} — advanced vinyl protection Antifungal, antibacterial and antimycotic protection Surface resistance to blood and urine Mildew resistant Sulfide stain resistant Anti-static finish	

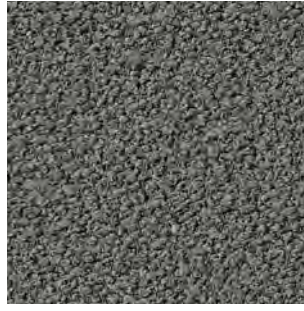

✚ **Fabric suitable for healthcare / Látka vhodná do zdravotnictví / Stoffe geeignet für Krankenhaus & Pflege**

✦ **Hygienic fabric / Hygienická látka / Hygienischer Stoff**

- **PERMABLOK^{3®}** is a proven vinyl protective coating that's engineered to create a tough, effective barrier against the three biggest problems encountered in healthcare and hospitality environments — germs, abrasion and stains.
- The vinyl should be cleaned periodically in order to maintain its appearance and prevent build-up of dirt and contaminants. Any stain, spills or soiling should be cleaned up promptly to prevent the possibility of permanent staining. Use soft soapy solutions or special cleaning products for vinyl fabrics to remove stains on the surface of the material. Remove only with a damp white cloth. Lacquers, strong cleaners, detergents, xylene-based solutions, acetone or MEK cause immediate damage and contribute to the deterioration of the material. The use of such cleaners is at owner's risk.
- Certain clothing and accessory dyes (such as those used on denim jeans) may migrate to lighter colors. This phenomenon increased by humidity and temperature and is irreversible. LD Seating will not assume responsibility for dye transfer caused by external contaminants and possible permanent staining caused by this phenomenon.
- Látka má protiplisňovou, antibakteriální a antimykotickou ochranu, a také je odolná vůči krvi, moči a sulfidovým skvrnám. Povrch je opatřen antistatickou úpravou.
- **PERMABLOK^{3®}** je osvědčená ochranná vrstva pro vinyl, která je navržena tak, aby vytvořila tvrdou, účinnou bariéru proti třem největším problémům, které se vyskytují v zdravotnickém a hotelovém prostředí — bakteriím, oděru a skvrnám.
- Vinyl by měl být pravidelně čištěn, aby si udržel svůj vzhled a zabránilo se hromadění nečistot a kontaminujících látek. Jakékoliv skvrny, rozlité tekutiny nebo jiné znečištění, by měly být rychle odstraněny, aby se předešlo možnosti trvalého zbarvení. Použijte jemné mýdlové roztoky nebo speciální čisticí prostředky pro vinylové tkaniny. Odstraňujte pouze vlhkým bílým hadříkem. Laky, silné čisticí prostředky, detergenty, prostředky na bázi xylenu, acetonu nebo butatonu způsobují okamžité poškození a přispívají ke znehodnocení materiálu. Použití takových čisticích prostředků je na riziko majitele.
- U některých látek a přídatných barev (např. ty používané v džínovině) může dojít k zbarvení světlejších odstínů. Tento jev je nevratný a zesiluje ho vlhkost a teplota. LD Seating nepřebírá jakoukoli odpovědnost za změnu zbarvení zapříčiněnou vnějšími znečišťujícími látkami a možným trvalým znečištěním zapříčiněným tímto jevem.
- Der Stoff hat einen antimykotischen, antibakteriellen und antifungalen Schutz und ist außerdem resistent gegen Blut-, Urin- und Sulfidflecken. Die Oberfläche des Stoffes ist antistatisch behandelt.
- **PERMABLOK^{3®}** ist eine bewährte Vinyl-Schutzbeschichtung, die so konzipiert ist, dass sie eine robuste, effektive Barriere gegen die drei größten Probleme in Gesundheits- und Hotellerie bildet — Keime, Abrieb und Flecken.
- Das Vinyl sollte regelmäßig gereinigt werden, um sein Aussehen zu erhalten und die Ansammlung von Schmutz und Verunreinigungen zu verhindern. Jeder Fleck, Verschüttungen oder Verschmutzungen sollten umgehend gereinigt werden, um die Möglichkeit von dauerhaften Verfärbungen zu verhindern. Verwenden Sie sanfte Seifenlösungen oder spezielle Reinigungsprodukte für Vinylstoffe, um Flecken auf der Oberfläche des Materials zu entfernen. Entfernen Sie nur mit einem feuchten weißen Tuch. Lacke, starke Reinigungsmittel, Waschmittel, Xylol-basierte Lösungen, Aceton oder MEK verursachen sofortige Schäden und tragen zur Verschlechterung des Materials bei. Die Verwendung solcher Reinigungsmittel erfolgt auf eigenes Risiko des Besitzers.

aquaclean® Technology
Safe Front® Technology
PFC Free

Hygienic fabric / Hygienická látka / Hygienischer Stoff

- For standard care regularly use vacuum cleaner.
- The **aquaclean**® Technology is a treatment that enables one to get rid of small stains such as wine, coffee, food and even most marker pens without having to wash the fabric with soap or detergent. Only water can be used.
- Thanks to **Safe Front**® technology, the fabric is protected against viruses and bacteria. It has been proven to reduce viral activity by over 91% after two hours of continuous contact.
- Shades of upholstery fabrics may differ slightly within the various batches of delivery.
- Pro běžné čištění a údržbu pravidelně vysávejte vysavačem.
- Technologie **aquaclean**® je speciální úprava, která umožňuje odstranit malé skvrny od vína, kávy, jídla nebo většiny fixů, aniž by bylo třeba použít mýdlo nebo jiný mycí prostředek. Je možné použít pouze vodu.
- Technologie **Safe Front**® je ochrana textilie proti virům a bakteriím. Po dvou hodinách trvalého kontaktu snižuje aktivitu virů o více než 91%.
- Odstíny potahových látek mohou mít mírné odchylky v rámci různých dodávek.
- Zur standardmäßigen Pflege bitte regelmäßig absaugen.
- Die **aquaclean**®-Technologie ist eine Behandlung, die es ermöglicht, kleine Flecken wie Wein, Kaffee, Essen und sogar die meisten Filzstifte zu entfernen, ohne den Stoff mit Seife oder Waschmittel waschen zu müssen. Es kann nur Wasser verwendet werden.
- Dank der **Safe Front**®-Technologie ist der Stoff gegen Viren und Bakterien geschützt. Es wurde nachgewiesen, dass die virale Aktivität nach zwei Stunden kontinuierlichem Kontakt um über 91% reduziert wird.
- Bei Stoffen sind handelsübliche Farbabweichungen je nach Produktionscharge möglich.

- Vacuum clean frequently, ideally every week. Remove stains as soon as they occur, with clean warm water or sparkling water. Extraction clean when necessary. Extraction cleaning might dissolve water-based glue. Pay attention to temperature and amount of cleaning fluid.
- Shades of upholstery fabrics may differ slightly within the various batches of delivery.
- Vysávejte často, nejlépe každý týden. Skvrny odstraňte hned, jak se objeví, čistou teplou vodou nebo perlivou vodou. V případě potřeby vyčistěte extrakcí. Extrakční čištění může rozpustit lepidlo na vodní bázi. Dbejte na teplotu a množství čisticí kapaliny.
- Odstíny potahových látek mohou mít mírné odchylky v rámci různých dodávek.
- Staubsaugen Sie regelmäßig, am besten jede Woche. Entfernen Sie Flecken, sobald sie auftreten, mit sauberem, warmem Wasser oder Sprudelwasser. Extraktionsreinigung, wenn nötig. Die Extraktionsreinigung kann Klebstoffe auf Wasserbasis auflösen. Achten Sie auf die Temperatur und die Menge der Reinigungsflüssigkeit.
- Bei Stoffen sind handelsübliche Farbabweichungen je nach Produktionscharge möglich.

Antistatic

Composition / Složení / Zusammensetzung	60% Polypropylene, 29% Wool, 10% Viscose, 1% Carbon Fibre	
Weight / Váha / Gewicht	385 g/m ² +/- 5%	
Width / Šířka / Breite	140 cm

Flammability / Ohnivzdornost / Feuersicherung	BS 5852	
🌿 Natural material / Přírodní materiál / Naturmaterial		

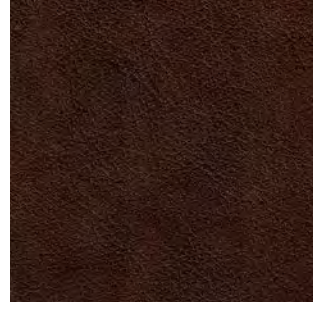

- Semi-aniline leather combines premium raw materials with delicate craftsmanship. Carefully selected high-quality hides with minimal imperfections and subtle pigmentation make the material naturally soft and pleasant to the touch.
- Lower adhesive content and a thin layer of color preserve its natural look and temperature comfort – the leather does not feel cold and provides a comfortable seating experience without causing sweating.
- Wipe off the dust regularly with a dry, soft cloth.
- Always remove possible impurities as quickly as possible. Before using a cleaning agent (which is suitable for this type of leather), always test it on a less visible spot first. Do not use organic solvent. Try to remove stains from liquids with absorbent paper without rubbing the damaged spot. Then lightly wipe the stained spot with a damp white cloth. Allow it to dry in the air and then polish it with a dry, soft cloth. For optimal care, fully clean and re-protect your leather furniture every six months.
- The leather should not be exposed to direct sunlight or a direct heat source.
- It is a sustainable product that is made by processing skins from the meat industry.
- The leather is processed in accordance with the REACH Regulation.
- Semi-anilinová kůže představuje spojení prvotřídní suroviny a jemného zpracování. Díky pečlivému výběru kvalitních usní s minimem nedokonalostí a jemné pigmentaci je materiál přirozeně měkký a příjemný na dotek.
- Nižší obsah lepidla a tenká vrstva barvy zachovávají její přírodní vzhled a teplotní komfort – kůže nestudí a příjemně se na ní sedí, aniž by způsobovala pocení.
- Prach utírejte pravidelně suchým měkkým hadříkem.
- Případně zašpinění vždy odstraňte co nejrychleji. Před použitím čistícího prostředku (vhodného pro tento typ kůže) vždy nejprve proveďte test na málo viditelném místě. Nepoužívejte organická rozpouštědla. Skvrny od tekutin se snažte odstranit savým papírem bez tření poškozeného místa. Následně použijte vlhký bílý hadřík, kterým lehce otřete znečištěné místo. Poté nechte na vzduchu uschnout a následně ještě doleštíte suchým měkkým hadříkem. Pro optimální péči důkladně vyčistěte a znovu ošetřete svůj kožený nábytek každých šest měsíců.
- Kůže by neměla být vystavena přímému slunci ani přímému zdroji tepla.
- Jedná se o udržitelný produkt, který se vyrábí zpracováním kůží z masného průmyslu.
- Kůže je zpracována v souladu s nařízením REACH.
- Semi-Anilin-Leder vereint hochwertige Rohmaterialien mit feinsten Verarbeitung. Sorgfältig ausgewählte Lederhäute mit minimalen Makeln und feiner Pigmentierung machen das Material natürlich weich und angenehm im Griff.
- Weniger Klebstoff und eine dünne Farbschicht bewahren das natürliche Aussehen und den thermischen Komfort – das Leder fühlt sich nicht kalt an und sorgt für angenehmes Sitzen, ohne zu schwitzen.
- Wischen Sie den Staub regelmäßig mit einem trockenen, weichen Tuch ab.
- Entfernen Sie eventuelle Verschmutzungen immer so schnell wie möglich. Testen Sie vor der Verwendung eines Reinigungsmittels (das für diese Art von Leder geeignet ist) immer zuerst an einem wenig sichtbaren Bereich. Verwenden Sie keine organischen Lösungsmittel. Flecken von Flüssigkeiten versuchen Sie mit saugfähigem Papier zu entfernen, ohne die beschädigte Stelle zu reiben. Wischen Sie dann die verschmutzte Stelle mit einem feuchten weißen Tuch leicht ab. Lassen Sie sie an der Luft trocknen und polieren Sie sie dann mit einem trockenen, weichen Tuch. Für eine optimale Pflege reinigen und schützen Sie Ihre Ledermöbel alle sechs Monate gründlich.
- Das Leder sollte nicht dem direkten Sonnenlicht oder einer direkten Wärmequelle ausgesetzt werden.
- Es handelt sich um ein nachhaltiges Produkt, das durch die Verarbeitung von Häuten aus der Fleischindustrie erzeugt wird.
- Das Leder wird in Übereinstimmung mit der REACH-Verordnung verarbeitet.

Natural material / Přírodní materiál / Naturmaterial

- The natural fibre structure is preserved as much as possible. Minor surface imperfections are related to the life of the animal and are an essential part of this type of leather.
 - The leather is polished by hand on the face side, resulting in a characteristic, perfectly smooth and velvety surface. This finish makes the leather more comfortable and breathable, but requires more care and regular maintenance.
 - Wipe off the dust regularly with a dry, soft cloth.
 - Always remove possible impurities as quickly as possible. Before using a cleaning agent (which is suitable for this type of leather), always test it on a less visible spot first. Do not use organic solvent.
 - Try to remove stains from liquids with absorbent paper without rubbing the damaged spot. Then lightly wipe the stained spot with a damp white cloth. Allow it to dry in the air and then polish it with a dry, soft cloth.
 - The leather should not be exposed to direct sunlight or a direct heat source.
 - It is a sustainable product that is made by processing skins from the meat industry.
 - The leather is processed in accordance with the REACH Regulation.
-
- Přirozená struktura vláken je zachována v nejvyšší možné míře. Drobné nedostatky na povrchu souvisejí se životem zvířete a jsou nedílnou součástí tohoto typu kůže.
 - Na lícové straně je kůže ručně leštěná, což vytváří charakteristický, dokonale hladký a sametový povrch. Díky této úpravě poskytuje kůže větší komfort a lépe dýchá, ale vyžaduje více péče a pravidelnou údržbu.
 - Prach utírejte pravidelně suchým měkkým hadříkem.
 - Případné zašpinění vždy odstraňte co nejrychleji. Před použitím čistícího prostředku (vhodného pro tento typ kůže) vždy nejprve proveďte test na málo viditelném místě. Nepoužívejte organická rozpouštědla.
 - Skvrny od tekutin se snažte odstranit savým papírem bez tření poškozeného místa. Následně použijte vlhký bílý hadřík, kterým lehce otřete znečištěné místo. Poté nechte na vzduchu uschnout a následně ještě doleštěte suchým měkkým hadříkem.

 - Jedná se o udržitelný produkt, který se vyrábí zpracováním kůží z masného průmyslu.
 - Kůže je zpracována v souladu s nařízením REACH.
-
- Die natürliche Faserstruktur bleibt möglichst weitgehend erhalten. Geringfügige Oberflächenmängel hängen mit dem Leben des Tieres zusammen und sind ein wesentlicher Bestandteil dieser Lederart.
 - Das Leder wird auf der Oberseite von Hand poliert, was eine charakteristische, vollkommen glatte und samtige Oberfläche ergibt. Durch dieses Finish wird das Leder komfortabler und atmungsaktiver, erfordert aber mehr Pflege und regelmäßige Wartung.
 - Wischen Sie den Staub regelmäßig mit einem trockenen, weichen Tuch ab.
 - Entfernen Sie eventuelle Verschmutzungen immer so schnell wie möglich. Testen Sie vor der Verwendung eines Reinigungsmittels (das für diese Art von Leder geeignet ist) immer zuerst an einem wenig sichtbaren Bereich. Verwenden Sie keine organischen Lösungsmittel.
 - Flecken von Flüssigkeiten versuchen Sie mit saugfähigem Papier zu entfernen, ohne die beschädigte Stelle zu reiben. Wischen Sie dann die verschmutzte Stelle mit einem feuchten weißen Tuch leicht ab. Lassen Sie sie an der Luft trocknen und polieren Sie sie dann mit einem trockenen, weichen Tuch.

♻️ Recycled fabric / Recyklovaná látka / Recycelter Stoff

- To preserve the fabric's attractive colour and appearance, we recommend regular vacuuming, preferably every week, with a soft fitting.
- Most types of spots can be removed with lukewarm water, possibly with a pH-neutral dishwashing detergent. Always remove the spot as quickly as possible – before it penetrates into the fibres.
- This knitted fabric is used exclusively for the backrest of FollowMe task chairs.
- Pro zachování atraktivní barvy a vzhledu tkaniny doporučujeme pravidelné vysávání, nejlépe každý týden, měkkým nástavcem.
- Většinu typů skvrn lze odstranit vlažnou vodou, případně pH neutrálním prostředkem na mytí nádobí. Skvrnu vždy odstraňte co nejrychleji – dříve, než pronikne do vláken.
- Tato pletenina se používá výhradně na opěrky pracovních židlí FollowMe.
- Um die attraktive Farbe und das Aussehen des Stoffes zu erhalten, empfehlen wir regelmäßiges Staubsaugen, am besten jede Woche, mit einem weichen Fitting.
- Die meisten Arten von Flecken lassen sich mit lauwarmem Wasser, eventuell mit einem pH-neutralen Geschirrspülmittel, entfernen. Entfernen Sie den Fleck immer so schnell wie möglich – bevor er in die Fasern eindringt.
- Dieses Gestrick wird ausschließlich für die Rückenlehne der FollowMe-Arbeitsstühle verwendet.
