

# Karoline

A student chair with a shell in 100% recycled material

# Karoline

Lekolar was first on the market with this student chair with plastic shell in 100% recycled material. Designed with smart baghook on the back. Stands in many different models to suit a wide variety of environments. All Karoline gas are available with the Moviflex option, which makes the seat tiltable in all directions and provides active sitting. Karoline is manufactured in Denmark and assembled by Lekolar in Osby, which gives a locally produced chair with fast deliveries. The seat fulfill Standard EN 1729-1&2 Sizemark 5-6 for large seat.

## C-KEY

The five circular criteria. This product fulfills:

- Circular design
- Primarily (in weight) recycled/renewable materials
- All materials possible to recycle
- Possibility of refurbishing
- Different materials have not been permanently jointed
